

# Tdap During Pregnancy

A PART IV QUALITY IMPROVEMENT PROJECT FOR  
OBSTETRICIANS AND GYNECOLOGISTS (OB/GYNS)

Approved through the American Board of Obstetrics and Gynecology (ABOG)

## **What is MOC?**

Maintenance of Certification was designed by the American Board of Medical Specialties as a way to ensure a continuous cycle of lifelong learning for a physician's professional development.

## **Who can Participate in the Tdap during Pregnancy Project?**

This MOC, Part IV Project has been approved by the American Board of Obstetrics and Gynecology (ABOG) for OB/GYNs throughout the country.

## **Why Should I Participate in this Project?**

The ABOG MOC standards now allow participation in Quality Improvement Efforts to meet the annual Improvement in Medical Practice (Part IV) MOC requirement. This activity has been approved to meet ABOG Improvement in Medical Practice requirements until 12/31/2023. Please review the current MOC Bulletin for further information: <https://www.abog.org/about-abog/bulletins>.

## **What is the Aim of this Project?**

The Tdap During Pregnancy Project is sponsored by the Indiana Immunization Coalition. OB/GYNs who participate will aim to increase their rate of Tdap for third trimester pregnant women by 25% during a 6-month period.

## **What is the Completion Criteria for the Project?**

OB/GYNs will submit monthly data gleaned from a daily tracking log that indicates the number of women in their third-trimester who visited their office that month and the number who received a Tdap vaccine.

## **Is there a Cost for the Project?**

The cost to participate in this MOC project is \$50 payable to the Indiana Immunization Coalition. This cost will cover all educational materials required for the project.
